INDEPENDENT RESEARCH PROJECT:

Emprendipia (2012 - 2021)

Founder and researcher in the action-research project Emprendipia, an initiative that aims to socialize the processes of socio-ecological entrepreneurship and territorial innovation and to support the transfer of organizations and initiatives (social, public and private) to hybrid organizations capable of managing complexity and change.

Entrepreneurship seeks to generate open and agile methodologies that may be available for any type of projects, organizations and / or territories. It functions as an operating system, as a set of operations (tools and dynamics) that can be downloaded and deployed (or installed) in any environment, organization, or community.

www.emprendipia.org
